1. **APPLICATION OF THIS MANUAL**

   A. This manual contains the rules and rating procedures for the Businessowners Policy.

   B. The Businessowners Policy provides both property and liability coverage for eligible small and medium size businesses.

   C. The Businessowners Program insures against risk of direct physical loss, unless specifically excluded. The package rate includes all of the mandatory coverages unless otherwise noted in the Premium Development – Mandatory Coverage section; optional coverages and endorsements may be added for additional charges.

   D. Refer to the state exceptions for any exceptions to the rules in this manual.

   E. **Automatic Increase in Insurance**

   The limit of liability applicable to Buildings is automatically adjusted by an annual percentage rate of 5% on a pro rate basis as the policy term progresses. The Company may increase or decrease the limits of liability for Buildings at the beginning of each renewal policy period, based upon reports of recognized appraisal agencies, reflecting changes in cost of construction.

   F. **Older and Converted Buildings**

   1. On buildings over 25 years old, a photograph of the building (which includes adjacent buildings) is recommended on all new submissions.

   2. Complete information must be shown in the appropriate section of the application regarding updating of the wiring, heating, plumbing and roof.

   D. **Factors or Multipliers**

   Factors or multipliers are to be applied consecutively and not added together unless otherwise specified.

E. **Rounding Rule**
   
   1. **Rates.** Round rates, factors and multipliers after the final calculation to three decimal places.

If the new total premium is still below the policy writing minimum premium, do not charge the additional premium generated by the change. If the new total premium is above the policy writing minimum premium, charge the amount which is in excess of the policy writing minimum premium.

   - System Restoration Costs – Coverage for the cost of a professional firm hired by the insured to restore its computer system to its pre-attack level of functionality by replacing or reinstalling software, removing malicious code and correcting the configuration of the insured's computer system.

   Additional coverages apply when the Computer Attack annual aggregate limit is $100,000:

CH. CyberOne™ Coverage (Cont.)

**Network Security Liability Coverage** provides coverage for:

- The breach of third party business information
- The unintended propagation or forwarding of malware

There need not be a covered loss under the first party Computer Attack coverage in order for there to be a loss under the third party Network Security Liability coverage.

The Network Security Liability limit is separate from that afforded under the Computer Attack Coverage. Limits cannot be combined or stacked. Only the limit in force during the policy period when notice of the suit was first received by the insured will apply.

Receipt of notice of the suit must occur during the policy period, and the suit must arise from an event that occurs after the first inception of the coverage.

The coverage will be defense within the limits.

2. Eligibility

Ineligible classes are as follows:
