

OREGON MUTUAL INSURANCE COMPANY
LOG HOME ENDORSEMENT
(Limitation of Coverage)

H165 (6-95)

In consideration of the issuance of the policy on a log home, it is agreed that in the event of a partial loss where the damaged logs cannot be cut out or removed and replaced by the insertion of new logs in order to replace the damaged logs, the company's **limit** for tearing down and rebuilding the undamaged portion of the building shall not exceed \$1,000 or 2.5% of the amount of insurance on the building whichever is greater. Also, if this policy affords coverage for additional living expense or loss of use, the additional time required to tear down and rebuild the undamaged portion of the building shall not be considered when computing the loss on this portion of this coverage.
